

The background of the entire image is a vibrant, high-resolution cosmic scene. It features a dense field of stars of various colors (white, yellow, orange, blue) against a deep black space. Interspersed among the stars are large, colorful nebulae and galaxy structures in shades of blue, orange, red, and green, creating a sense of vastness and depth.

A JOURNEY INTO THE
UNDISCOVERED...

A full-page background image of a dense forest, heavily tinted with a monochromatic blue color. Sunlight filters through the canopy, creating a dappled light effect on the foliage. The leaves are detailed and layered, giving a sense of depth and texture.
