

A full-page background image showing a vibrant green aurora borealis (northern lights) dancing across a dark, starry night sky. Below the sky, a range of rugged, snow-covered mountains is visible, with a small town or village illuminated by warm lights at the base. The overall scene is serene and majestic.

Natural beauty brought to life by light...

Translucent stones are rare natural materials that can transmit light due to their semi-transparent structure. Thanks to this feature, they create dramatic and mesmerizing effects in any space through backlighting applications.

Color Play with RGB Lighting

With RGB LED systems, not only red, green, and blue, but millions of color tones can be projected onto translucent stones. This allows for customizable ambiance and creative scene designs tailored to each space.

WARM WHITE LIGHT
(2700K - 3000 K)

NEUTRAL WHITE LIGHT
(4000 K)

COOL WHITE LIGHT
(5000 K - 6500 K)
