THE POINT WHERE SURFACE
TRANSFORMS INTO POWER...

NEXT-GENERATION SURFACE EXPERIENCE

Krearte was born from “knowledge engineering” and shaped through ReArt.

- Every surface begins with data, research, and engineering intelligence.
- Through Breton Kreos technology, this knowledge is redesigned, interpreted, and rearticulated into a tangible form.
- With advanced engineering and refined production methods, Krearte transforms knowledge into high-performance, inspiring, durable surfaces with a look closest to nature.

KREARTE TECHNOLOGY

It brings together Kreos technology, four different production methods, advanced engineering solutions, and intensive R&D studies within a unified vision.

The Krearte Collection, the result of this vision, is not merely a surface; it offers a next-generation experience centered on user needs.

With its superior durability and long-lasting structure, Krearte delivers a user- and environmentally-friendly solution for both professionals and living spaces.

Through diverse vein characteristics, distinctive pattern combinations, and polished–matte surface alternatives, Krearte unites engineering strength with aesthetics.

As powerful as it is elegant, as technical as it is inspiring... Krearte redefines the perception of surface in the perfect balance of durability, design, and innovation.

THE CONTRIBUTION OF LAYERED FULL-BODY STRUCTURE TO DESIGN

Thanks to full-body technology, the pattern and texture continue throughout the entire thickness of the slab. This feature:

- Eliminates the need for additional edge and corner cladding.
- Provides visual continuity in large-scale surface applications.
- Offers a clean, strong, and precise expression in architectural details. By preserving the same pattern in every cut, it grants designers freedom, originality, and flexibility during the application process.
- Krearte features the same pattern across all its layers.
- Inspired by nature, Krearte does not replicate it; instead, it reinterprets it through modern technology.

KREARTE'S NEW PERSPECTIVE ON DESIGN

The Krearte Collection expands its range of applications, making the product suitable for more spaces and offering designers greater creative freedom.

Thanks to its slim and lightweight 15 mm structure, it is extremely easy to process during the application phase.

Its structure, which preserves pattern continuity across projects, reveals Krearte's distinctive approach to design-offering both creative freedom and precise control.

KREARTE: THE COLLECTION THAT BRINGS THE POWER OF QUARTZ TO SURFACES

Thanks to its quartz composition, Krearte brings together all essential performance features in a single surface.

Non-Porous and Hygienic Structure

Its non-porous structure prevents liquid absorption, minimizing staining and inhibiting microorganism accumulation, thereby ensuring a high level of hygiene.

Chemical and Stain Resistance

Asitler, bazlar ve kimyasal maddelere karşı It demonstrates strong resistance to acids, bases, and chemicals, delivering superior performance in high-use areas such as kitchen countertops.

Easy Cleaning and Low Maintenance

Its smooth surface can be easily cleaned with everyday cleaning products and requires no special maintenance, ensuring a user-friendly experience.

Hygiene and Health-Oriented Performance

The natural properties of quartz provide inherent antibacterial characteristics, making it especially suitable for spaces where hygiene is essential, such as kitchens and bathrooms.

Scratch Resistance

Thanks to its quartz structure, it offers high resistance to impacts and abrasion caused by daily use, preserving its surface aesthetics in its original form for years.

Heat Resistance

Its heat-resistant structure ensures safe performance against hot contact in kitchens and other high-traffic environments.

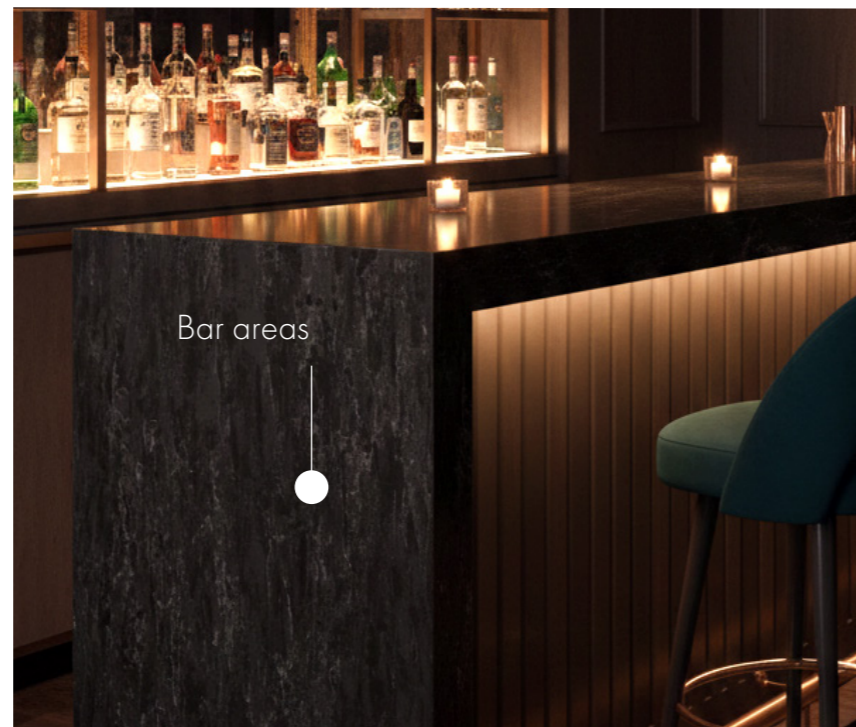

TECHNICAL SPECIFICATIONS & APPLICATION AREAS

Polished surfaces add a natural brilliance to the spaces they inhabit.

The Touch surface offers a more matte appearance, reduced reflection, and a silky feel-enhancing your interaction with the countertop both visually and tactilely.

Thickness Options

J Jumbo (330x164cm)

 Polished Finish

 Touch Finish

Alastro Grey, is inspired by the tranquil sky revealed in the first light of morning. The soft balance of light grey and off-white tones brings together a sense of serenity and freshness. This surface represents the elegance within simplicity and the natural harmony formed with light.

full-slab / 330x164 cm

ALASTRO GREY

Althea, story patiently written by nature. Its elegant texture, shaped in the layers of the earth, takes on a different character each time it meets the light. Every line is a trace of time; every tone reflects the purest form of calm. It warms in the soft light of morning and deepens in the shadows of evening. Althea is the name of understated elegance.

full-slab / 330x164 cm

ALTHEA

Camel Via, is the name of a journey inspired by lands where time flows slowly. It takes its name from the serenity of the desert and its tones from the natural warmth of sand. This surface embodies a way of living unhurried-where simplicity, authenticity, and timeless aesthetics come together.

full-slab / 330x164 cm

Carrara Aravelle, presents a soft and fluid surface language with its warm undertone veining emerging over a white background. Fine lines create a sense of uninterrupted movement across the surface, establishing natural continuity. The calm harmony of its colors brings a bright and inviting atmosphere to the space.

full-slab / 330x164 cm

CARRARA ARAVELLE

Carrara Aurion, brings a gentle sense of movement to the surface with its gold-toned veins flowing across a white background. These traces do not seek a defined direction; they move freely throughout the surface, creating a warm and natural flow. The lightness of its colors establishes a bright atmosphere while adding refined depth. Carrara Aurion offers a calm yet lasting expression.

full-slab / 330x164 cm

CARRARA AURION

Carrara Calmira, offers a simple yet profound narrative with its delicate veins gently moving between different shades of white. The surface progresses without sharp contrasts; transitions are soft, the expression is clear. With changing light, it can appear brighter, more matte, or more subdued. Carrara Calmira creates a serene unity, bringing a sense of clarity and purity to the space.

full-slab / 330x164 cm

CARRARA CALMIRA

Carrara Lysor, establishes a quiet expression with delicate traces that remain almost subtle against its pure white surface. The texture spreads gently without immediately revealing itself, carrying a lightness that becomes more apparent over time. This understated appearance brings a clean, open, and serene atmosphere to the space. Carrara Lysor is a refined surface that highlights the subtlety within simplicity.

full-slab / 330x164 cm

CARRARA LYSOR

Carrara Whirva, creates a calm yet dynamic surface narrative with soft grey traces gently dispersed within white. The veins do not follow a defined direction; they spread freely across the surface, establishing a sense of natural continuity. This structure brings a soft vibrancy to the space while preserving a feeling of openness. Carrara Whirva stands out with its simplicity, leaving a lasting impression that endures without overwhelming the eye.

full-slab / 330x164 cm

CARRARA WHIRVA

Dravone, offers a calm and cohesive appearance through the gentle diffusion of light tones across the surface. Subtle textures introduce a soft sense of movement without forming sharp or dominant veining. Color transitions are smooth and balanced, leaving a feeling of freshness at first glance. Dravone brings a simple, clean, and orderly atmosphere to the space.

full-slab / 330x164 cm

Dravone Brown, brings a warm and natural expression to the surface with its earthy-toned traces emerging over a light background. Rather than forming sharp lines, the texture unfolds as soft, diffused markings spread across the surface. This structure creates a calm yet living atmosphere within the space. Dravone Brown offers a simple and balanced surface that highlights natural authenticity.

full-slab / 330x164 cm

DRAVONE BROWN

Dravone Grey, offers a clean and refined surface with tones close to light grey. Subtle textures create a sense of uninterrupted flow across the surface, softening its overall appearance. Its color composition brings brightness and spaciousness to the space. Dravone Grey establishes a balanced atmosphere, distinguished by its calm character.

full-slab / 330x164 cm

DRAVONE GREY

Novarion, conveys a sense of deep intensity through its dark tones. The textures spreading across the surface create a natural movement without being confined to a single line. This structure gives the space a strong and focused atmosphere. Novarion establishes a distinct character wherever it is placed and clarifies the overall expression of the area.

full-slab / 330x164 cm

Novarion Bronze, offers a rich yet lively appearance with bronze flecks scattered across its dark surface. The texture progresses more like traces sprinkled over the surface than a regular flow, revealing varying intensities as you look closer. This tonal variation brings a sense of weight along with warmth to the space. Novarion Bronze establishes a strong foundational presence wherever it is applied.

full-slab / 330x164 cm

Novarion Gold, imparts a warm depth to the surface with gold-toned textures emerging over its dark base. The scattered and organic markings create a non-uniform movement, highlighting the surface's liveliness. The color transitions guide the eye across the surface with a natural flow. Novarion Gold adds a strong, characterful, and lasting expression to any space.

full-slab / 330x164 cm

NOVARION GOLD

Novarion Silver, presents a strong and intense expression with silver-toned textures appearing over its dark base. The dynamic traces spreading across the surface give the stone a lively structure and guide the eye along it. The combination of color and texture naturally enhances the sense of depth in the space.

full-slab / 330x164 cm

NOVARION SILVER

Orva Smoke, is inspired by the quiet of a horizon shrouded in mist. The deep interplay of gray and anthracite tones reflects the soft traces left by smoke as it drifts through the air. This surface tells a story not of clarity, but of transitions, shadows, and a calm strength.

full-slab / 330x164 cm

ORVA SMOKE

Sabbia Luna, it is the name of a design born from its soft reflections. Like sand surfaces shaped by the wind in the quiet of the night, it offers a calm, balanced, and natural aesthetic. Named Sabbia Luna, meaning "Moon Sand" in Italian, it brings serene elegance to spaces.

full-slab / 330x164 cm

SABBIA LUNA

Twizzle Gold, conveys a quiet sense of richness with fine gold streaks scattered within its white base. These lines progress across the surface with a natural flow rather than strict order-random yet balanced. While the structure appears calm at first glance, it reveals its details up close.

full-slab / 330x164 cm

TWIZZLE GOLD

Twizzle Grey, brings together the natural markings of the stone in a simple rhythm. Its light gray tones reveal different facets under changing light-sometimes soft, sometimes more pronounced. The horizontal texture gives continuity to the surface, imparting a calm and orderly atmosphere to the space. Its understated presence quietly completes the overall harmony.

full-slab / 330x164 cm

TWIZZLE GREY

Twizzle Ice, combines the pure white of ice with the permanence of stone. With a strength born of simplicity, it offers spaces a sense of freshness, balance, and modern elegance through a timeless surface narrative. Soft textures hidden within the light white tones evoke the fine traces that appear on frozen surfaces. This design reflects freshness and tranquility in the spaces it inhabits.

full-slab / 330x164 cm

TWIZZLE ICE

Twizzle Moss, creates a nature-inspired narrative with earth- and moss-like traces appearing on a white base. The layers on the surface flow like markings formed over time. Its color transitions are subtle, revealing new details the closer you look. Twizzle Moss brings natural softness and quiet depth to any space.

full-slab / 330x164 cm

TWIZZLE MOSS

Vandera Brown, draws inspiration from the deepest tones of earth and the timeless strength of stone. The layered textures over its dark brown base reflect the natural surfaces shaped by the earth over thousands of years. It embodies a strong, sophisticated, and characterful presence.
