COLLECTIONS

ARTEO	8 - 13
KREARTE	14 - 35
ESSENCE	38 - 75

**Minor variations in appearance, composition, dimensions, thickness, color, or pattern are inherent to the manufacturing process and are not considered defects.*

As a result, slight differences in color, shade, veining, and pattern may occur between samples and the actual product. We recommend visiting our showroom to experience our products and explore the available color options in person.

The Essence Collection reflects the timeless strength of time-tested quartz manufacturing technology, combining proven production techniques with a refined balance of aesthetics and durability. It delivers consistent quality across every surface, with lasting performance you can rely on.

The Krearte Collection combines advanced quartz surface technology with a refined balance of aesthetics, durability, and precision. Monolithic Edge creates seamless edge continuity while maintaining the slab's original thickness, and Lasagna Layer highlights the material's distinctive layered structure. Together, these features enhance both the visual character and performance of Krearte surfaces.

The Arteo Collection represents a new digital movement in quartz surfaces, powered by advanced 3D inkjet printing technology. With micron-level precision, each design is brought to life on the quartz surface with the artistry and finesse of an artist's brushstrokes.

COANTE MERGES TECHNOLOGY WITH DESIGN TO CREATE TIMELESS VALUE

Coante is a global surface brand that combines a deep-rooted family heritage with advanced engineering and a contemporary design philosophy. Since 2017, driven by strategic investments in technology and an innovative approach to manufacturing, the company has been developing flexible, high-value solutions tailored to diverse applications and global markets.

Operating three distinct quartz technologies within a single campus:

- Classic Quartz Production Technology,
- 3D Inkjet Printing Technology
- Kreos Technology provides Coante with exceptional manufacturing flexibility.

With a robust infrastructure encompassing 45,000 m² of outdoor space and 60,000 m² of indoor space, for a total production area of 105,000 m², Coante has an annual production capacity of 2,000,000 m².

For Coante, technology is more than a means of manufacturing; it is a strategic force that empowers design.

Together where people and spaces, nature and technology, present and future converge on a single surface. To consider both the “before” and the “after” looking beyond the present moment to time itself and to put responsibility first.

coante

coante Quartz Surfaces

At the intersection of these ideas, COANTE was born.

Creating together.
Thinking long term.

7.5 MN+
PART OF EVERY MOMENT WHERE LIFE UNFOLDS

We don’t just manufacture surfaces;
we create spaces where life unfolds.

Coante designs not only for today, but for tomorrow, inspired by nature and empowered by technology. It begins with aesthetics and endures through lasting performance.

For us, beauty is not fleeting; it is a value that stands the test of time. The true strength of a surface lies in delivering the same confidence, year after year. Coante creates surfaces designed together and made stronger by time.

IMPACT IN NUMBERS CONCRETE RESULTS, MEASURABLE IMPACT

Coante advances sustainable production through concrete action, with a focus on reducing its carbon footprint across all operations and logistics.

4 MW
SOLAR POWER PLANT
Clean energy generated through our on-site solar power plant.

8,760,000 kWh
ANNUAL ENERGY PRODUCTION
Annual electricity generation from solar energy.

100 %
WATER RECOVERY
All water used in the production process is fully recovered.

615,965 kWh
ELECTRICITY SAVINGS
Annual electricity savings achieved through energy efficiency initiatives.

BUILDING A GREENER FUTURE ISN'T JUST A GOAL; IT'S OUR WAY OF LIFE

At Coante, we continuously innovate to minimize the environmental impact of our manufacturing processes. From solar energy and water recovery to waste management and energy efficiency, we develop sustainable solutions across every aspect of our operations.

01 - Energy Efficiency

With our 4 MW solar power plant, we meet a significant portion of our production needs with renewable energy. Our energy management systems continuously optimize consumption.

02 - Water Management

Our closed-loop water system recovers 100% of the water used in the production process. Our treatment facilities ensure that clean water is returned to nature.

03 - Responsible Production

From raw material selection to packaging, we minimize our environmental footprint at every stage. We increase our use of recycled materials every year.

Sustainability Roadmap

2018 - Environmental Management System

Achieved ISO 14001 Environmental Management System certification.

2020 - Solar Power Plant

Commissioned our 4 MW solar power plant, marking the beginning of clean energy generation.

2022 - Water Recovery Facility

Achieved 100% water recovery capacity.

2023 - Environmental Award

Recognized as the Most Successful Enterprise in the Environmentally Sensitive Facilities category.

2030 - Carbon Neutrality Target

We aim to achieve carbon neutrality across our production processes.

R&D and Production Efficiency

The Coante R&D Center was established to develop pioneering solutions for the quartz surface industry. Focusing on advanced materials science, surface engineering, and sustainable production technologies, our R&D team redefines industry standards. By combining the advantages of Breton technology with our own R&D expertise, we develop unique product formulations and distinctive surface effects.

Every new collection is the result of extensive research and development conducted in our laboratories.

ARTEO
COLLECTION

Technology That Brings Imagination to the Surface

Arteo represents a new era in quartz surface design, powered by advanced 3D Inkjet Printing Technology. Developed with a digital canvas approach, Arteo transforms patterns created with micron-level precision into sophisticated works of art.

3D Inkjet Printing Technology

Micron-Level Precision, Limitless Design Freedom.

Full-Body Structure

The pattern and veining extend throughout the entire slab, ensuring seamless continuity along every edge.

- High Scratch Resistance
- High Heat Resistance
- High Impact Resistance
- High Flexural Strength
- Antibacterial
- Food-Safe Surface
- Hygienic
- Easy Care & Cleaning
- Stain Resistant
- Technology Closest to Natural Stone
- Polished & Touch Surface Options
- 1,5 cm Slim Thickness Available
- **Various Thickness Options**

- **Jumbo 130”x65”**

ARTEO COLLECTION

PETRA TAJ

Full Slab

Close-up

Petra Taj brings together the beauty shaped by nature over time with the serene language of modern architecture. Soft beige and light cream tones blend with crystalline veining that flows gracefully across the surface, revealing a remarkable sense of depth. More than a visual statement, these intricate patterns bring a sense of calm, balance, and timeless elegance to every space.

With its softly reflective texture, Petra Taj creates a light and airy atmosphere in any setting. Across expansive kitchen islands, countertops, and backsplashes, it creates a seamless sense of harmony, while on stair treads, floors, and walls, it enhances the architectural character of the space. This visual continuity across multiple applications creates a strong foundation for designs that value harmony, flow, and cohesion.

ARTEO COLLECTION

CRISTALUNA

Full Slab

Close-up

Cristaluna captures the pure moment when light meets stone. Across its surface, soft shades of light gray and white blend seamlessly, creating gentle transitions reminiscent of moonlight filtering through a delicate mist. Its pattern is neither bold nor subdued; instead, it reveals a quiet depth that becomes more captivating the longer you look. Each vein tells a story of balance, shaped by the slow and timeless artistry of nature.

Neither overly dynamic nor completely still, Cristaluna brings a sense of freshness and tranquility to any interior. Its subtle reflection of light makes spaces feel brighter, more open, and effortlessly refined. Designed for those who find elegance in simplicity, Cristaluna creates interiors that feel lighter, more spacious, and beautifully serene.

KREARTE
COLLECTION

A New Generation of Surface Design, Powered by Cutting-Edge Technology

Krearte represents a next-generation approach to surface design, built on advanced engineering expertise and powered by Kreos technology. More than a surface, Krearte delivers an experience designed around the needs of its users. With exceptional durability and long-lasting performance, it provides a reliable solution for both professional applications and contemporary living spaces. A diverse range of veining, distinctive pattern combinations, and surface finishes brings together advanced engineering and refined aesthetics. Krearte redefines the surface experience through a seamless balance of durability, design, and innovation.

Lasagna Layer

In technical terminology, this layered composition is known as “stratification.” In everyday language, it is often described using the “lasagna layer” analogy. Both terms refer to a material structure formed through a sequence of uniform layers.

Monolithic Edge

A solution in which the front and side edges of the countertop retain the slab’s original thickness, with no additional build-up. No cladding, mitering, or applied edge profile is used; the exposed edge reveals the material’s true cross-section and thickness. This creates a clean, seamless, and natural transition from the surface to the edge.

- High Scratch Resistance
